

BEKTURDIEV ISLOMBEK

PROFESSIONAL PROFILE

Passionate about web development and armed with proficiency in MERN stack, I'm dedicated to innovative projects and self-driven learning. Adept at communication and problem-solving, I thrive in collaborative teams. With demonstrated expertise in hard skills, I look forward to leveraging my capabilities as an intern. My aim is to deepen industry understanding, refine development skills, and contribute effectively to real-world projects.

PERSONAL PROJECTS

Personal Portfolio Website

Designed and developed a dynamic personal portfolio website from the ground up, utilizing cutting-edge technologies to create an engaging and informative online presence.

Skills applied:

- Next.js for server-side rendering and enhanced performance.
- GSAP (GreenSock Animation Platform).
- Framer Motion to create captivating and seamless animations.
- Responsive Design Ensured the website's responsiveness across various devices.

Corporate Website for GUM Shopping Center

Designed and developed a corporate website for Gum Shopping Complex, utilizing cutting-edge technologies to enhance user experience and showcase the complex's offerings.

Skills applied:

- Next.js framework for server-side rendering and improved performance.
- Floor Planner integration for interactive map functionality.
- Swiper JS for creating dynamic image sliders.
- i18n language library for multi-language support.
